Education

Politecnico di Milano (PoliMi) — Milan, Italy
Master of Science in Computer Science and Engineering — Sep. 2026 – Present

Sharif University of Technology — Tehran, Iran
Bachelor of Science in Computer Engineering; GPA: 18.77/20.00 — Sep. 2020 – Sep. 2025

Allameh Helli Pasdaran High School (NODET) — Tehran, Iran
Diploma in Mathematics and Physics; GPA: 19.60/20.00 — Sep. 2017 – Sep. 2020

Research Interests

- Computational Social Choice
- Reinforcement Learning
- Mechanism Design
- Algorithmic Game Theory
- Online Algorithms
- Learning-augmented Algorithms

Publications and Preprints

Conference Design with Strategic Authors: Working paper. [Preprint]

Research Experience

Tehran Institute for Advanced Studies (TEIAS) — Sep. 2023 – Jan. 2025
Research Assistant under the supervision of Prof. Masoud Seddighin

- Investigated metric distortion of randomized voting rules within the learning-augmented framework, under the supervision of Prof. Masoud Seddighin and in collaboration with Golnoosh Shahkarami of the Max Planck Institute. Established a lower bound on the consistency–robustness trade-off and explored approaches toward a corresponding upper bound, without obtaining one.

University of Michigan — Jun. 2023 – Apr. 2024
Remote Research Intern under the supervision of Prof. Grant Schoenebeck

- Collaborated remotely with Prof. Grant Schoenebeck on modeling conference peer review as a Stackelberg game, analyzing conference designs in terms of review burden, conference value, and author utility. Contributed to the theoretical analysis, coding, and co-authoring of an unfinished paper, *Conference Design with Strategic Authors*.

Honors, Scholarships, and Academic Distinctions

Invest Your Talent in Italy Scholarship — Jul. 2026
Italian Government; €10,800 Scholarship and Tuition Fee Waiver

Ph.D. Admission Offer – Purdue University — Apr. 2025
Computer Science (Fully Funded)

Ph.D. Admission Offer – University of Toronto — Apr. 2025
Computer Science (Fully Funded)

Nationwide University Entrance Exam — Aug. 2020
Mathematics and Physics; Ranked in the Top 0.2% Nationwide

Iranian National Physics Olympiad — Aug. 2019
Bronze Medal

Teaching Experience

Numerical Computation, Instructor: Dr. Samira Hossein Ghorban — Fall 2023, Fall 2024
Teaching Assistant

Scientific and Technical Presentation, Instructor: Prof. Shohreh Kasaei — Spring 2024, Fall 2024
Teaching Assistant

Algorithmic Game Theory, Instructor: Prof. Masoud Seddighin — Spring 2023, Spring 2024
Head Teaching Assistant of Coding Assignment

- Created video lectures for Linear Programming workshop.
- Collaborated on course project design and implementation.
- Held quizzes and graded the papers.

Machine Learning, Instructor: Dr. Fatemeh Seyyedsalehi — Spring 2024
Teaching Assistant

Game Theory, Instructor: Marzie Nilipour — Spring 2023
Teaching Assistant

Compiler Design, Instructor: Samaneh Hosseinmardi — Spring 2023
Teaching Assistant

Probability and Statistics, Instructor: Prof. Ali Sharifi-Zarchi — Fall 2022
Teaching Assistant

Fundamentals of Programming, Instructor: Alireza A. Mohammadi — Spring 2022
Teaching Assistant

Professional Experience

Snappfood — Tehran, Iran
Data Scientist — Feb. 2025 – Sep. 2026

- Developed and maintained machine learning models for delivery operations, including start-to-assign time and ride-time prediction, and worked on biker–trip batch assignment. Also conducted delivery-related data analyses and implemented software and data engineering solutions, including Kafka-based data migration pipelines.

Cafe Bazaar — Tehran, Iran
Software Engineer — Jul. 2022 – Jan. 2023

- Developed an online wallet and payment system for Bazaar App Store, serving thousands of users.

Allameh Helli Pasdaran High School — Tehran, Iran
Head of Physics Olympiad Department — Sep. 2020 – Sep. 2021

- Taught calculus and electrodynamics and prepared students for the Iranian National Physics Olympiad.

Relevant Coursework

- Game Theory (Coursera)
- Algorithm Design (18.2/20)
- Artificial Intelligence (20/20)
- Convex Optimization (18.8/20)
- Principles of Economics (20/20)
- Machine Learning (18.1/20)

Skills

Programming Languages: Python, R, Java, C/C++, Verilog, MIPS Assembly

Tools: Docker, Kubernetes, Kafka, Spark, LaTeX, Git

Languages: Persian (Native), English (TOEFL iBT: 101/120), Italian (A1)
